

EAST 2023

Conference & Exhibition

The Electronics Industry's East Coast Conference and Trade Show

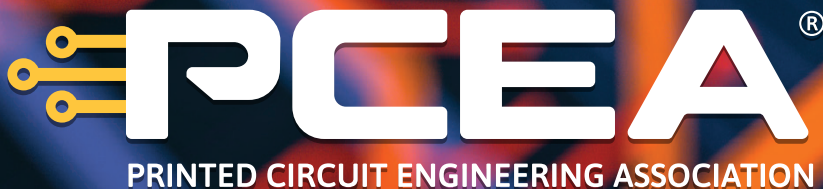

EXHIBITOR DIRECTORY

CONFERENCE: May 9- 12

EXHIBITION: Wednesday, May 10

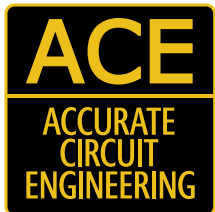

Boxboro Regency Hotel &
Conference Center, MA

Brought to you by

PCBEAST.COM

EXHIBITOR LIST

Accurate Circuit Engineering

Booth #101
3019 S. Kilson Drive
Santa Ana, California 92707
(714) 546-2162
sales@ace-pcb.com | ace-pcb.com

Accurate Circuit Engineering (ACE), a leading provider of high-speed, RF and microwave PCBs. AS9100, ITAR and military-certified ACE manufactures prototype PCBs in as few as 24 hours. Offering manufacturing and assembly faster than anyone. We are industry leaders in technology, speed, quality and flexibility. Go with the best: put an ACE up your sleeve.

ACDi

Booth #107
7435 New Technology Way, Ste A
Frederick, Maryland 21703
(301) 624-1655
tdykeman@acdi.com | acdi.com

ACDi is an electronics manufacturing services provider. Core competencies include printed circuit board layout to box-build assemblies, new product introduction, testing, systems integration, product lifecycle management, product engineering support services, and cable assemblies/wiring harnesses.

actnano, Inc.

Booth #504
85 Bolton Street
Cambridge, Massachusetts 02140
(734) 735-5381
hilary.brazin@actnano.com | actnano.com

actnano's advanced PCBA protection technologies are an innovative alternative to traditional conformal coatings. Our fluorine-free coatings can be applied directly on connectors, antennas, LEDs and high heat generating components, allowing electronics manufacturers to comprehensively safeguard their devices against moisture, humidity, condensation, salt and sweat. Advanced nanoGUARD outperforms numerous, rigorous customer and industry requirements and is REACH- and RoHS-compliant.

All Flex Solutions, Inc.

Booth #305
1705 Cannon Lane
Northfield, Minnesota 55057
(507) 663-7162
aschaner@allflexinc.com | allflexinc.com

All Flex Solutions is a leading provider of specialty flex and rigid-flex circuits, flexible heaters, and value-added assemblies for mission- and life-critical applications. All Flex products can be found in many applications and markets, including medical, defense, aerospace, semiconductor, industrial, high speed and telecommunications applications.

Worldwide PCB Solution

Allfavor Technology

Booth #310
905 Albion Ave
Schaumburg, Illinois 60193
(630) 913-4263
barry@allfavorpcb-usa.com | allfavorpcb-usa.com

PCB manufacturer with four factories, one in Shenzhen, two in Nanjing, one in Zhuhai, China. Producing high-mix, low-to-medium/high-volume rigid PCBs 2-14 layers, flex, rigid-flex, RF/HF, & metal clad boards. Technology is location specific. We are ISO & UL for up to 6oz copper. Protos in 3-5 days, small production in 7-10 days and standard production in 15 days.

Altair

Booth #604
1820 E. Big Beaver Rd.
Troy, Michigan 48083
(248) 614-2400
info@altair.com | altair.com

Altair is a global leader in computational science and artificial intelligence (AI), providing software and cloud solutions in simulation, high-performance computing (HPC), data analytics, and AI. Altair's PCB solution enables organizations involved in electronics system design & manufacturing with a full suite of PCB verifications like DFM/DFA and Multi-Physics Simulation to design & develop robust and reliable electronics products.

EXHIBITOR LISTINGS

American Standard Circuits, Inc.

Booth #401
475 Industrial Drive
West Chicago, Illinois 60185
(630) 639-5444
sales@asc-i.com | asc-i.com

American Standard Circuits (ASC) is a leader in the PCB manufacturing industry. ASC has a wide range of capabilities and a solid reputation. ASC is a total solutions provider for today's electronics industry. Capabilities include flex/rigid-flex, RF/microwave, metal-clad and metal-backed PCBs, from prototype to volume production. Certifications include ISO 9001:2015, AS9100D, IATF16949, ISO 13485, MIL-PRF-31032, MIL-PRF-50884.

APCT

Booth #302
3495 De La Cruz Boulevard
Santa Clara, California 95054
(650) 704-3380
tony.torres@apctinc.com | APCT.com

APCT is the second-largest manufacturer of PCBs in North America. Technologies include standard through-hole; advanced HDI; and flex & rigid-flex product. Certifications support both commercial & military work. Corporate cycle times are consistently faster than industry standards and premium cycle times are world-class. All factories manufacture prototype to mid-production orders and production solutions are offered by our offshore partnerships.

Blueshift

Booth #205
5 South Spencer Road
Spencer, Massachusetts 01562
(888) 350-7586
carlie.vento@blueshiftmaterials.com | blueshiftmaterials.com

Blueshift manufactures AeroZero®, a lightweight polymer aerogel film with low thermal conductivity and diffusivity, along with low dielectric constant and low loss. AeroZero film is a dielectric substrate with 85% air, providing a superior microwave material that has excellent RF transparency and is also lightweight. Typical applications include radomes and antenna systems, especially focused on military and space.

CadEnhance EDA Productivity Tools

Booth #212
7421 Malden Court
Plano, Texas 75025
(214) 280-8804
boleary@cadenhance.com | cadenhance.com

CadEnhance strives to provide the best tools for HW designers looking to automate their development processes. These include netlist and BoM visualization, verification and validation; automated schematic symbol creation for small medium and large FPGAs, ASICs, ICs and connectors; schematic symbol viewing/verification with graphical symbol diff.; custom TCL automation for Cadence OrCAD capture.

DirectPCB

Booth #601
14422 Bay Hills Drive
Largo, Florida 33774
(727) 480-7045
greg@DirectPCB.com | DirectPCB.com

With over 25 years' PCB purchasing and manufacturing experience, I offer customers a more cost-effective relationship with domestic and overseas board manufacturers. I previously ran one of the fastest-growing PCB distributors in the US, and helped pioneer using Asia-based personnel to manage the manufacture of quality high-mix, low-to-medium volume PCB production delivered to the US on time at competitive prices.

DownStream Technologies

Booth #301
290 Donald Lynch Blvd, Suite 301
Marlborough, Massachusetts 01752
(508) 970-0670
joec@downstreamtech.com | downstreamtech.com

DownStream Technologies helps organizations optimize and automate the PCB release process. Our integrated platform allows engineering and manufacturing teams to transition PPCB designs into successful, physical PCBs, faster and without compromise. CAM350® and DFMStream® provide verification, optimization, and output generation to drive PCB fabrication. BluePrint-PCB® works with CAD systems to produce comprehensive electronic drawings to drive fabrication, assembly, and inspection.

EISO Enterprise Co., Ltd. (Taiwan)

Booth #106
No. 2, Zhonghua Lane, Shanyin Road
Gueishan District, Taoyuan City
Taiwan
+886-922283678
jewel@eiso.com.tw | eiso.com.tw

Leading PCB manufacturer from Taiwan. Founded in 1994. Publicly listed in 2014. We are here to make your offshore PCB sourcing experience an easy and smooth one! We might not be the cheapest, but we are surely worth the quality and service provided.

EXHIBITOR LISTINGS

Electronic Interconnect

Booth #203
2700 Touhy Avenue
Elk Grove Village, Illinois 60007
(847) 364-4848
pratish@eiconnect.com | eiconnect.com

Electronic Interconnect (EI) is a printed circuit board designer and fabricator that provides PCBs from single-sided to complex multilayer boards from prototype through production. We are members of the SMTA and IPC. Approved supplier at Exostar. We're ISO 9001:2018; AS-9100 Aerospace certified, 13485 compliant; UL approved, and ITAR registered. Pratish Patel, EI's President/CTO, is an IPC Certified Instructor.

EMA Design Automation

Booth #102
225 Tech Park Dr
Rochester, New York 14623
(877) 362-3321
info@ema-eda.com | ema-eda.com

EMA Design Automation, a Cadence® Channel Partner serving North America, is a leader in product development solutions offering a complete range of electrical and mechanical CAD tools, product lifecycle management systems, services, training, and technical support. EMA manufactures the Component Information Portal™ (CIP), TimingDesigner®, and CircuitSpace®, and all are distributed through a worldwide network of value-added resellers.

Facet LLC

Booth #104
219 Foreside Rd
Falmouth, Maine 04105
(408) 613-5704
info@facetspaces.com | facetspaces.com

Facet LLC is your perfect gateway to Asian manufacturing. We have a strong engineering team in US and Asia, and a factory in Bangkok, Thailand. We have been working with our clients from prototype to volume production on PCBA, plastic injection molding, metal housing, etc. We also provide solar panel solutions for home automation and small appliances.

Fischer Technology Inc.

Booth #413
750 Marshall Phelps Road
Windsor, Connecticut 06095
(860) 298-6072
jgoodwill@fischer-technology.com | fischer-technology.com

Fischer offers measurement devices that are designed to measure the thinnest surface coatings on both assembled and non-assembled PCBs, rigid and flexible PCBs. Measure PCB surface finishes, ENIG, ENEPAG, EPAG. XRF with automated X-Y table for increased throughput & improved reliability. Meets IPC-4552B & IPC-4556 requirements. Reliable coating thickness measurement, material analysis, nanoindentation, automation and much more.

GS Swiss PCB AG

Booth #303
Faennring 8
Kuessnacht, Schwyz 6403
Switzerland
+41 41 854 48 12
sales@gs-swiss.com | gs-swiss.com

GS Swiss PCB AG excels in the manufacturing of highly miniaturized flex and rigid PCBs with lines and spaces down to 10µm, cores of 12µm for flex and 30µm for rigid PCBs. Testing capabilities include IST-testing and 3-D topography measurement. Our PCBs are used in hearing aids, medical implants and sensors as well as on Mars.

HZO

Booth #306
5151 McCrimmon Pkwy., Suite 208
Morrisville, North Carolina 27560
(919) 439-0505
info@HZO.com | hzo.com

HZO provides high-reliability coatings for when electronic product failure isn't an option. We can help you get started quickly with our turnkey application solution for adaptable, scalable production. Our solutions revolve around your convenience – outsource to worldwide locations or use our factory-in-factory business model. Our coatings are REACH, RoHS, and Prop 65 compliant, with millions of PCBs coated.

Identco

Booth #404
28164 W. Concrete Drive
Ingleside, Illinois 60041
(815) 385-0011
rmiller@identco.com | identco.com

IDENTCO® is a rapidly growing international manufacturer of high-performance labeling solutions for product tracking, tracing, branding, compliance, and identification. We specialize in complete print-on-demand labeling solutions and ultra-durable high graphic content custom labels. With locations in the US, Mexico, and Europe, IDENTCO supplies global OEMs and contract manufacturers with durable label solutions for the most extreme environments.

EXHIBITOR LISTINGS

Imagineering, Inc.

Booth #214
2425 Touhy Ave.
Elk Grove Village, Illinois 60007
(630) 430-2366
sroy@pcbnet.com | pcbnet.com

For the last 37 years, Imagineering has been a pioneer in technology and innovation of electronic contract manufacturing, from quickturn PCB fabrication to full turnkey production. With our state-of-the-art SMT equipment, we can turn your concept into production in less than 7 days. Our quality standards will meet and exceed all your quality requirements.

IPC-2581 Consortium

Booth #210
110 Adams Street
Westborough, Massachusetts 01581
(978) 973-0443
hemant.nh20@gmail.com | ipc2581.com

IPC-2581 Consortium is a group of PCB design and supply chain companies whose goal is to enable, facilitate and drive the use of IPC-2581 in the industry. It is devoted to accelerating the adoption of IPC-2581 as an open, neutral global standard to encourage innovation, improve efficiency, and reduce costs. Members include OEMs, software companies, PCB fabricators, assemblers and test companies.

JBC Tools

Booth #308
9296 Dielman Industrial Drive
Saint Louis, Missouri 63132
(314) 913-0539
isilva@jbctools.com | jbctools.com

More than 90 years of experience have placed JBC at the technological forefront of tools for soldering and rework operations in electronics. Innovation, efficiency and reliability are the key features of a wide range of products which have been designed to satisfy the most demanding requirements of professionals.

Jove Enterprise Limited

Booth #208
Unit GH, 6 Floor, China Merchants Tower
WangHai Road, SheKou, NanShan District
Shenzhen City, Guangdong 518067
China
(603) 303-5036
cameron.burke@jovepcb.com | jovepcb.com

Founded in 2004, Jove PCB is a global leader in bare printed circuit boards. Jove has a total of four locations which range in capabilities and lead-time options. Jove is ranked within the top 100 PCB factories in the world. This was achieved through engineering expertise and focusing on high-technology PCBs. In 2021, Jove's global revenue was \$225 million.

Lightspeed MFG

Booth #206
63 Neck Road
Haverhill, Massachusetts 01835-8025
(978) 521-7676
rbreault@lightspeedmfg.com | lightspeedmfg.com

We are passionate about PCB assembly and customer service. Founded in 2003 to provide superior service for BGA rework, we've grown into three unique businesses: PCB repair, prototype assembly; medium-volume SMT manufacturing. Our key to success? Technically qualified associates with a can-do attitude and a commitment to customer satisfaction, which has fueled our rapid business growth and stellar reputation.

Metallic Resources

Booth #414
2368 E Enterprise Parkway
Twinsburg, Ohio 44087
(330) 425-3155
rrocha@metallicresources.com | metallicresources.com

Metallic Resources offers a unique mix of electrolytic solders, wire solders, solder pastes, fluxes, and electronic recycling services. As a manufacturer, Metallic Resources offers products and services that provide greater cost effectiveness, increased profitability, higher quality, and superior production line performance to our customers.

NCAB Group

Booth #514
10 Starwood Dr.
Hampstead, New Hampshire 03841
(800) 370-2737
ncabgroup.usa@ncabgroup.com | ncabgroup.com

NCAB Group is a leading global producer of printed circuit boards (PCBs). Our mission is to produce PCBs in the most sustainable way for demanding customers on time with zero defects and at the lowest total cost.

Newgrange Design

Booth #506
607 North Avenue, Door #17
Wakefield, Massachusetts 01880
(781) 245-2800
mleary@newgrangedesign.com | newgrangedesign.com

Newgrange Design is the "Wicked Flexible, Super Effective" future of outsource PCB design partners where Excellence in PCB Design is our focus. Located in Wakefield, MA, our team of over 25 PCB designers will help you succeed in designing and bringing to market your hardware on time, on budget, and with outstanding quality. We design in Altium, Allegro, and PADs.

EXHIBITOR LISTINGS

PalPilot International Corp

Booth #313
500 Yosemite Drive
Milpitas, California 95035
(510) 585-8231
stephanie.teng@pallpilot.com | pallpilot.com

Delivering custom interconnect solutions globally for 30 years. With our combined knowledge of engineering and manufacturing, we are supporting over 1000 customers with printed circuit board design services, printed circuit board manufacturing, cables, connectors, metal & plastic fabrication and semiconductor products. We provide a dynamic manufacturing supply chain that is constantly growing as technology evolves.

PCB Technologies USA

Booth #204
3321 Doris Ave. Bldg A. Ste 3
Ocean, New Jersey 07712
(209) 612-9912
melaniev@pcbtech-usa.com | pcb-technologies.com

All-in-one solution provider of miniaturization & advanced packaging solutions, PCBs, rigid, rigid-flex fabrication & full turnkey PCBA services.

Polar Instruments, Inc.

Booth #103
12655 SW Center St. Ste 400
Beaverton, Oregon 97005
(503) 356-5270
requests@polarinstruments.com | polarinstruments.com

Managed by engineers for signal integrity engineers and PCB designers, Polar Instruments delivers field solvers, stackup design and documentation tools, SI measurement systems, and the all-important support that are de facto standards world wide. We listen! So our product capabilities advance every year. Visit us to discover our latest updates and enhancements.

Printed Circuit Engineering Association (PCEA)

Booth #505
P.O. Box 807
Amesbury, Massachusetts 01913
(572) 888-6383
pcea@pcea.net | pcea.net

PCEA, a nonprofit association, promotes the printed circuit engineering profession through the exchange of information and the integration of new design concepts through training and certification using a worldwide network of chapters. Products include PRINTED CIRCUIT DESIGN & FAB (pcdandf.com)/CIRCUITS ASSEMBLY (circuitsassembly.com) magazine; PCBUPdate (pcbupdate.com) e-newsletter; PCU (printedcircuituniversity.com) online training, PCB East/West (pcbeast.com) (pcbwest.com) exhibitions and conferences; PCB2Day (pcb2day.com) workshops.

Quantic Evans

Booth #503
72 Boyd Avenue
East Providence, Rhode Island 02914
(401) 435-3555
misha@quanticevans.com | quanticevans.com

Quantic Evans manufactures high-energy density capacitors for mission-critical applications. We have the most power dense capacitor technology in the industry and are routinely specified for defense, aerospace, and energy exploration applications where high reliability and SWaP (space, weight, and power) savings are critical design considerations. Applications include radar, laser, amplifier, power hold up/bridge power, electronic warfare, downhole drilling, and more.

Quantic Ohmega/Quantic Ticer

Booth #501
4031 Elenda Street
Culver City, California 90232
(603) 793-7942
lwillhelm@ohmega.com | quanticohmega.com

For more than 50 years, OhmegaPly® and Ticer TCR® have been broadly designed into high reliability, design-specific, PCB resistive networks where performance is necessary and failure not an option. Millions of hours of flawless performance across high-frequency antenna systems for ground, air and space demonstrate the value, versatility, robustness, and improved electrical performance OhmegaPly® and TCR® resistive copper foils provide.

REStronics New England

Booth #309
34 Claudette Circle
Framingham, Massachusetts 01701
(508) 361-9299
hadams@restronics.com | restronicsnewengland.com

Featuring Conductive Containers (CCI): ESD packaging for static control; Essemtec: SMT pick-and-place and dispensing equipment specializing in high-mix/low-volume and NPI; Lindstrom: precision hand tools, Metcal: soldering & rework systems, manual dispensing systems and fume extraction; Seltech StaticStop: ESD static control flooring; Vision Engineering: ergonomic microscopy, inspection & noncontact measuring systems.

Schmid Systems Inc.

Booth #602
2227 S. 48th St Suite E
Tempe, Arizona 85282
(215) 882-4102
ferguson.ro@schmid-group.com | schmid-group.com

Schmid has been an innovative partner to the electronics industry since 1965. Our system and process solutions for the manufacture of printed circuit boards is world class. Our new ET process is capable to process line & space down to 2µm with an embedded trace technology based on next-generation tools that will enhance the future of PCB design.

EXHIBITOR LISTINGS

Screaming Circuits

Booth #211
1140 NW 3rd Ave
Canby, Oregon 97013
(503) 592-7307
joxnam@screamingcircuits.com | screamingcircuits.com

For 20 years Screaming Circuits has been delivering quickturn prototype assembly and on-demand electronics manufacturing. We specialize in fast response, small quantities and awkward and unforecastable production volumes. We offer online quoting of kitted (also called consigned) and turnkey electronics assembly. We can machine assemble as few as one board for your small volume production runs.

Siemens

Booth #513
5800 Granite Parkway, Suite 600
Plano, Texas 75024
(972) 987-3000
PCB_info.sisw@siemens.com | eda.sw.siemens.com

Siemens is driving transformation to enable a digital enterprise where electronic systems engineering and manufacturing meet tomorrow. Xcelerator, the comprehensive and integrated portfolio of software and services from Siemens (Xpediton, PADS, HyperLynx, and Valor), helps companies of all sizes create and leverage a comprehensive digital twin that provides organizations with new insights, opportunities, and levels of automation to drive innovation.

SIERRA ELECTROTEK

Sierra Electrotek

Booth #304
7745 S 10th Street
Oak Creek WI, Wisconsin 53154
(414) 762-1390
sales@sierraelectrotek.com | sierraelectrotek.com

Sierra Electrotek specializes in high-volume PCB fabrication for large OEMs in need of advanced electronics. We serve all industries, such as defense, aerospace, and medical. We supply rigid, flex, rigid-flex, HDI microvia technology and high-layer-count controlled impedance up to 30 layers with PTFE, Rogers 3000, 4000, 5000, and 6000 material sets. We are AS9100, NADCAP and MIL-55110/31032 certified.

Sunstone Circuits

Booth #207
13626 S. Freeman Rd
Mulino, Oregon 97042
(971) 227-0166
kelly.atay@sunstone.com | sunstone.com

Sunstone Circuits® is a leader in providing innovative and reliable printed circuit board (PCB) solutions for the electronic design industry. Since 1972, Sunstone has delivered high quality, on-time PCBs and is committed to improving the prototyping through production processes. With white-glove support, Sunstone Circuits provides unparalleled customer service and leads the industry with over 99% on-time delivery.

Surface Mount Technology Association (SMTA)

Booth #502
6600 City West Parkway
Eden Prairie, Minnesota 55344
(952) 920-7682
info@smta.org | smta.org

SMTA is an international association for electronics engineering and manufacturing professionals. SMTA offers access to local and global communities of experts, research and training materials from thousands of companies dedicated to advancing the electronics industry. The greatest benefits emerge from the SMTA's mission of sharing knowledge and best processes by bringing educational content and a global network to local regions.

SVTRONICS, INC.

SVTronics, Inc

Booth #500
3465 Technology Dr.
Plano, Texas 75074
(972) 743-9862
chris@svtronics.com | svtronics.com

SVTronics is core to OEM/ODM companies with our USA-based manufacturing facility, and include EVMs, ATE boards, PIBs, HTOL, HAST, bench boards, lab boards, burn-in boards & characterizations boards with electrical engineering, PCB layout, design verification & validation, compliance testing and industrial design with expertise in medical devices, industrial and mobile computing products, communications, embedded, automotive, industrial, military and IoT.

EXHIBITOR LISTINGS

Taiyo America, Inc.

Booth #312
2675 Antler Drive
Carson City, Nevada 89701
(775) 885-9959
Info-TYA@Taiyo-america.com | taiyo-america.com

Taiyo America was established in 1990, in Carson City, NV as a manufacturing subsidiary of Taiyo Holdings Co., Ltd. (located in Japan). We have been exceeding the industry's needs for solder mask products, legend inks, thermal management inks, and direct imaging products to consistently meet the ever-growing and changing demands for printed circuit boards.

Trans-Tec America LLC

Booth #307
7301 W. Boston Street
Chandler, AZ. 85226
(877) 987-2678
sales@trans-tec.com | trans-tec-america.com

TransTechnology Worldwide, with 41 locations in 12 countries, has long been established as a worldwide leader in sales, distribution and aftermarket service for a full line of electronic manufacturing equipment. Trans-Tec America has been established to provide comprehensive sales, distribution and service for Yamaha industrial and SMT products throughout North America, including the full range of Yamaha SMT equipment.

Trilogy Engineering

Booth #408
3650 19 ST NE
Calgary, Alberta T2E 6V2
Canada
(403) 219-8865
info@trilogy-netengineering.com | trilogy-netengineering.com

Trilogy-Net Engineering combines design and manufacturing services. Our design engineers are focused on electrical and mechanical design. Electrical design services specialize in DC-DC and DC-AC converters. We offer custom design, leveraging from our base platform of over 15 designs. Our services include pre-certification of EMI/EMC scanning.

TRILOGY-NET INC.

Trilogy-Net Inc.

Booth #406
52nd Avenue NE
Calgary, Alberta T3J 0K7
Canada
(403) 219-8868
info@trilogy-net.com | trilogy-net.com

Trilogy-Net provides PCBAs utilizing and introducing the latest technology in flexible electronics manufacturing. Our R&D in the past year has introduced 3-D AOI, quantifying, verifying, documenting Trilogy level of quality. Trilogy has introduced vapor phase reflow, enhancing current electronics, but is also expanding possibilities in design. WHEN IT MATTERS! Just ask us!

Trylene Inc.

Booth #105
10650 Stancliff Road
Houston, Texas 77099
(281) 835-4162
sales@trylene.com | trylene.com

Trylene is your onshore one-stop ECMS partner with expertise in PCB assembly, cable harnesses and box-build. We specialize in quick prototype manufacturing to mid-volume production. We strive to deliver the best quality products on-time at the most competitive price. We implement state-of-the-art technologies, equipment and methodologies. We are ISO 13485, 9001 and ITAR certified as well as NIST 800-171 compliant.

Ultra Librarian

Booth #403
225 Tech Park Dr
Rochester, New York 14623
(877) 362-3321
info@ultralibrarian.com | ultralibrarian.com

Ultra Librarian provides all of the component information you need to make smart decisions for your next project. Access pricing, inventory, manufacturer information, and pre-built parts to help you choose the right components and get to designing quicker. Library parts can be exported to over 20 EDA CAD formats, providing schematic symbols, PCB footprints, and 3-D models.

Ventec International Group

Booth #314
720 Lee St.
Elk Grove Village, Illinois 60007
(630) 422-1627
saleseast@ventec-usa.com | ventecclaminates.com

Ventec is a premier global supplier of advanced copper-clad glass-reinforced and metal-backed substrates. We specialize in PCB base materials including high-quality FR-4, high-speed/low-loss- & high-performance materials and an advanced range of thermal management solutions. Strict quality-controlled processes (AS9100D, IATF 16949:2016, ISO 9001:2015), all backed by a fully controlled and managed global supply chain, sales and technical support network.

EXHIBITOR LISTINGS

Veritiv Corporation

Booth #402
5572 Eagles Watch Way
Milford, Ohio 45150
(303) 748-0401
michael.parks@veritivcorp.com | veritiv.com

Veritiv Corporation, headquartered in Atlanta and a Fortune 500® company, is a full-service provider of packaging, products, services and solutions. Veritiv also provides logistics and supply chain management solutions. Serving customers in a wide range of industries with distribution centers throughout the US and Mexico, with team members around the world helping shape the success of its customers.

Victory Giant Technology

Booth #213
5201 Great America Pkwy Suite 320
Santa Clara, California 95054
(408) 828-1772
george.dudnikov@shpcb.com | en.shpcb.com

The 25th largest worldwide PCB maker and the fastest-growing, specializing in advanced PTH and HDI PCBs. The company is considered the pioneer and leader in Industry 4.0 manufacturing. With global service locations and the ability to support NPI/QTA through high-volume production, VGT is committed to being one of the leading and green manufacturing benchmark enterprises in the PCB industry.

WIT Co., Ltd.

Booth #410
1620 Bath Street, Unit A
Santa Barbara, California 93101
(805) 689-2407
Jim_gibson@witjpn.com | witjpn.com

WIT Co., Ltd. manufactures visual inspection systems, miniature camera systems, LED inspection systems, in-circuit and functional test systems. WIT also manufactures tools used for test probe extraction and insertion, and probe tip cleaning. WIT's global presence, with HQ in Japan, and additional locations in China, Vietnam, Thailand, Philippines, USA and Mexico.

XDry Corporation

Booth #603
3407 County Road 427
Anna, TX 75409
(972) 824-9548
sales@xdry.com | xdry.com

XDry has more than 15 years of experience manufacturing dry cabinet storage systems. XDry offers a wide selection of dry storage cabinets to choose from, including storage for printed circuit boards, moisture-sensitive devices (MSD), optics, laboratory equipment, industrial equipment, collectibles, media, and more.

Zuken USA Inc.

Booth #202
238 Littleton Rd., Suite 100
Westford, Massachusetts 01886
(888) 332-7227
info@zukenusa.com | zuken.com

Zuken offers a range of PCB design solutions – for the cost-conscious, to those tackling complex PCB subsystem design challenges. eCADSTAR is an intuitive easy-to-use solution with SI/PI analysis and extensive online support. CR-8000 is a 3-D multi-discipline design platform for PCB subsystem design. Stop by Booth #202 and Get to Know Zuken.

PCB WEST 2023
Conference & Exhibition

*The Largest Conference and Exhibition
for Printed Circuit Board Design,
Fabrication and Assembly in the Silicon Valley*

**SAVE
THE
DATE**

Conference:
September 19 – 22

Exhibition:
Wednesday, September 20
SANTA CLARA CONVENTION CENTER

Brought to you by
